

World's biggest cable solution provider.

At our warehouse in Poland, we are ready to provide you with state-of-the-art products.

The planet's pathways

Connecting
the world.

Today and in
the future.

Prysmian – the world leader in the energy and telecom cables and systems industry.

With 140 years' experience, Prysmian is strongly positioned in high-tech markets and offers the widest possible range of products, services, technologies and know-how.

140
YEARS OF
EXPERIENCE

25
R&D CENTRES
AROUND
THE WORLD

We specialise in underground and submarine cables and systems for power transmission and distribution, special cables for applications in many different industries, and medium and low voltage cables for the construction and infrastructure sectors.

For the telecommunications industry, Prysmian is the world's largest provider of cutting-edge cables and accessories for voice, video and data transmission, offering a comprehensive range of optical fibres, optical and copper cables and connectivity systems.

We are committed to environmental responsibility in our production processes, the protection of the global environment, and the responsible management of relations with the local communities in which we work.

For us, innovation means meeting the needs of our customers and communities by understanding their business drivers as quickly as they do. To do that, our team of over 900 Research & Development professionals is constantly looking to the future, predicting and identifying emerging trends in each of our industries and sectors. Acting on this intelligence from 25 R&D centres around the world, we're constantly close to our customers in their own local markets.

Prysmian Poland

Global means local

From the deepest oceans and mines to the farthest satellites orbiting Earth in Space, you'll find products made by us. Prysmian Poland is a proud part of the world's largest global actor in the cable manufacturing business – Prysmian.

But, no matter how large we are, we live and expand thanks to you, our local customers and business partners. In order to offer you tailor-made solutions we appreciate the importance of understanding local preconditions and your special needs. That's why we believe it's crucial to be present here in Poland, while being backed-up by the capacity the global Group possesses. This business approach has made us the world's largest producer of safe and reliable cables for the power and telecommunication industry.

One company, three brands

The corporate brand operates through three distinct commercial brands incorporating our products and solutions: Prysmian, Draka and General Cable. As three of the market's strongest brands worldwide, they have highly complementary products and services.

ENERGY AND T&I

We provide a comprehensive range of leading products and accessories for construction and infrastructure projects, while ensuring versatility, the highest safety standards, CPR requirements and reduction of total cost of investments. Prysmian Poland is a dedicated partner having access to Prysmian factories located all over Europe, offering short lead times and the vastest range of top-notch cables on the market. Thanks to our constant commitment to development and quality, our customers and business partners can stand out in the market, creating a sustainable and profitable future for themselves while giving more value to their end users.

Our broad portfolio includes:

- Cables for low voltage installations
- Cables for medium voltage installations
- Cables for high voltage and extra high voltage installations
- Cables which feature innovative new properties, design to client specification and fit for special projects

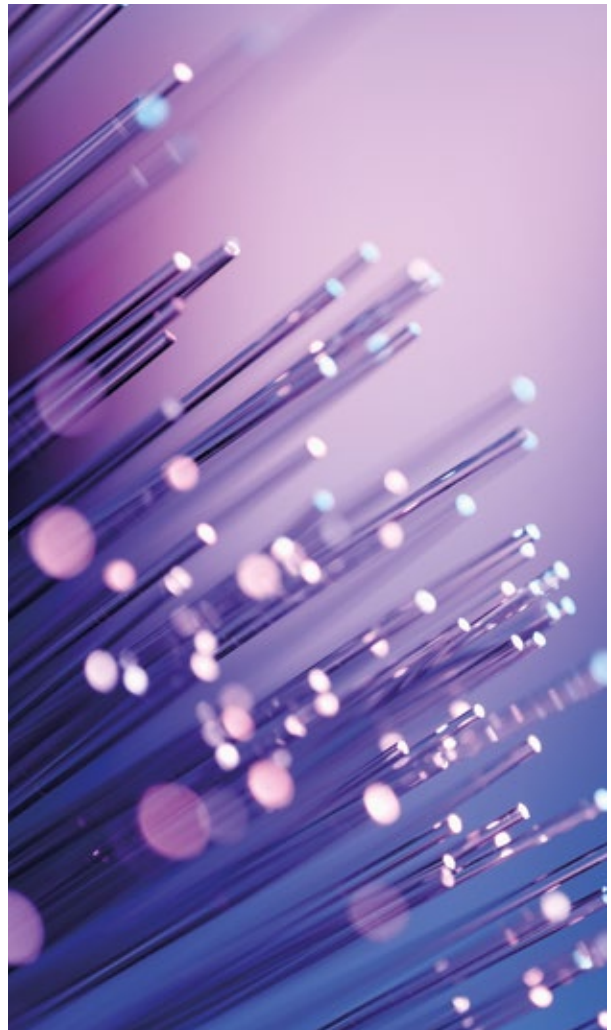

TELECOMS

Prysmian is one of the world's largest producers of telecom cables, delivering optical fibre and optical fibre cabling solutions around the globe. Our advanced technology and innovations for broadband solutions are creating opportunities for growth, connections and enhancements to live and work everywhere. Our complete selection of optical technologies, fibres and fibre cables have been designed, developed, manufactured and tested to meet even the most challenging of conditions. These, in combination with made-to-measure connectivity products, constitute a complete range of solutions to address every customer's specific needs.

In our stock and offer you'll find:

- Mini cables
- Aerial cables
- Duct cables
- FlexTube® cables
- Hybrid cables
- Connectivity products

Cables on stock

At our warehouse, located in central Poland, we possess a generous area of 6,800 m² in open air and a 3,620 m² large hall in which we are able to stock a tremendous amount of cable drums and provide advanced logistic support.

With most products ready to be delivered off the shelf we can assure high supply and short lead times. Even more important, we have a dedicated and highly competent team to meet the most demanding requirements and give you state-of-the-art service in terms of logistics and technical support at all times.
